DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1, drawn to a display system, classified in class 47, subclass 39.
 - II. Claim 2, drawn to a support bracket, classified in class 248, subclass 126.
 - III. Claim 3, drawn to a plant display stand, classified in class 119, subclass 65.9.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because the Invention I is directed to a display system, the Invention II is directed to a support bracket, and the Invention III is directed to a plant display stand.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. During a telephone conversation with Attorney Webb on 10/24/05 a provisional election was made without traverse to prosecute the invention III, claim 3. Affirmation of this election must be made by applicant in replying to this Office action. Claims 1 and 2 have been withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Art Unit: 3644

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claim 3 is rejected under 35 U.S.C. 102(b) as being anticipated by Ripley, Sr. et al. (US5595021).

Ripley, Sr. et al. disclose a plant display stand having an open top reservoir having upstanding sides wherein the sides being attached to one another at contiguous end portions, a protective corner trim (30a-30d) attached over the attached portions of the upstanding sides.
